Mark Dunn Amalgamations*

Christmas 2009

*Dear Colleague,*

Please see the brief narrative below on a Two Companies that we are acting on behalf of:-

**General Printer** with capability of a wide range of jobs ranging from one-offs to large runs of catalogues and brochures. This North West based company is well established with a good management team and would be a good acquisition for anybody looking for a printing company with spare capacity or who could relocate the business to an existing printing operation. Turnover is in excess of £5 million and the company has invested extensively in modern plant and equipment.

*Please contact Mark Dunn or download an NDA from our Website, complete and return. We will need to know the identity of your client.*

**Component Manufacturer:** This business produces exceptionally high volumes of components that are used by supply chain partners. Turnover is currently around £7m and starting to increase as forward orders for 2010 are received. The business has substantial land and buildings and an excellent management team. There is no external pressure on the company but the owners feel that they should now consider their exit strategy.

*Please contact Geoff Coppenhall or download an NDA from our Website, complete and return. We will need to know the identity of your client.*

We continue to look for businesses for our clients, and while we normally seek profitable business we will certainly look at companies with large Pension Fund deficits or companies that are break even to add to clients existing businesses. We have clients who are not reliant on Bank funding and able to move quickly.

Please call Mark or Geoff to discuss any suggestions.

This year we will both be making charitable donations again, rather than sending Christmas Cards. May we both wish you the very best for Christmas and the New Year and look forward to an improving economy

in 2010.

Kind regards

***Mark Dunn & Geoff Coppenhall***
